

## CTAC 227 – Interpersonal Communication

### Search Strategy to Find a Quantitative and a Qualitative Research Article using *Communication Studies MultiSearch* (which includes PsycINFO, ERIC, and ABI/INFORM Global)

Examples of topical text to type into the search box on the first line. (Include the punctuation):

- assertiveness
- “self esteem” or “self confidence” or “self evaluation” or “self image”
- “anger control” or “anger management”
- “conflict resolution” or “conflict management”
- empath\* and listening

For **Qualitative** articles, type in the search box on the second line (with the asterisk):

- **qualitative or interview\* or observation**

For **Quantitative** articles, type in the search box on the second line:

- **quantitative**

[If you do not find a quantitative article with this strategy, clear the second line search box, redo the search, and look over your result list for quantitative research articles]

Below the search boxes, on the line beginning **Limit to:**, place a check in the box next to **Peer reviewed**

Below the search boxes, on the line beginning **Language:**, select **English**
